

Please do not replace K-Love, a privately funded Christian radio station, with a LPFM. I am spiritually fed and bless God all day as I listen. It is important to be available for people searching for meaning to their life and salvation thru faith. We are strengthen by the words,song and testimonies heard on K-Love. It would be a huge loss to us and friends who only care to listen to Christian music. Let others have their secular music-please do not push God out of our society!
